Delta Dental of Michigan
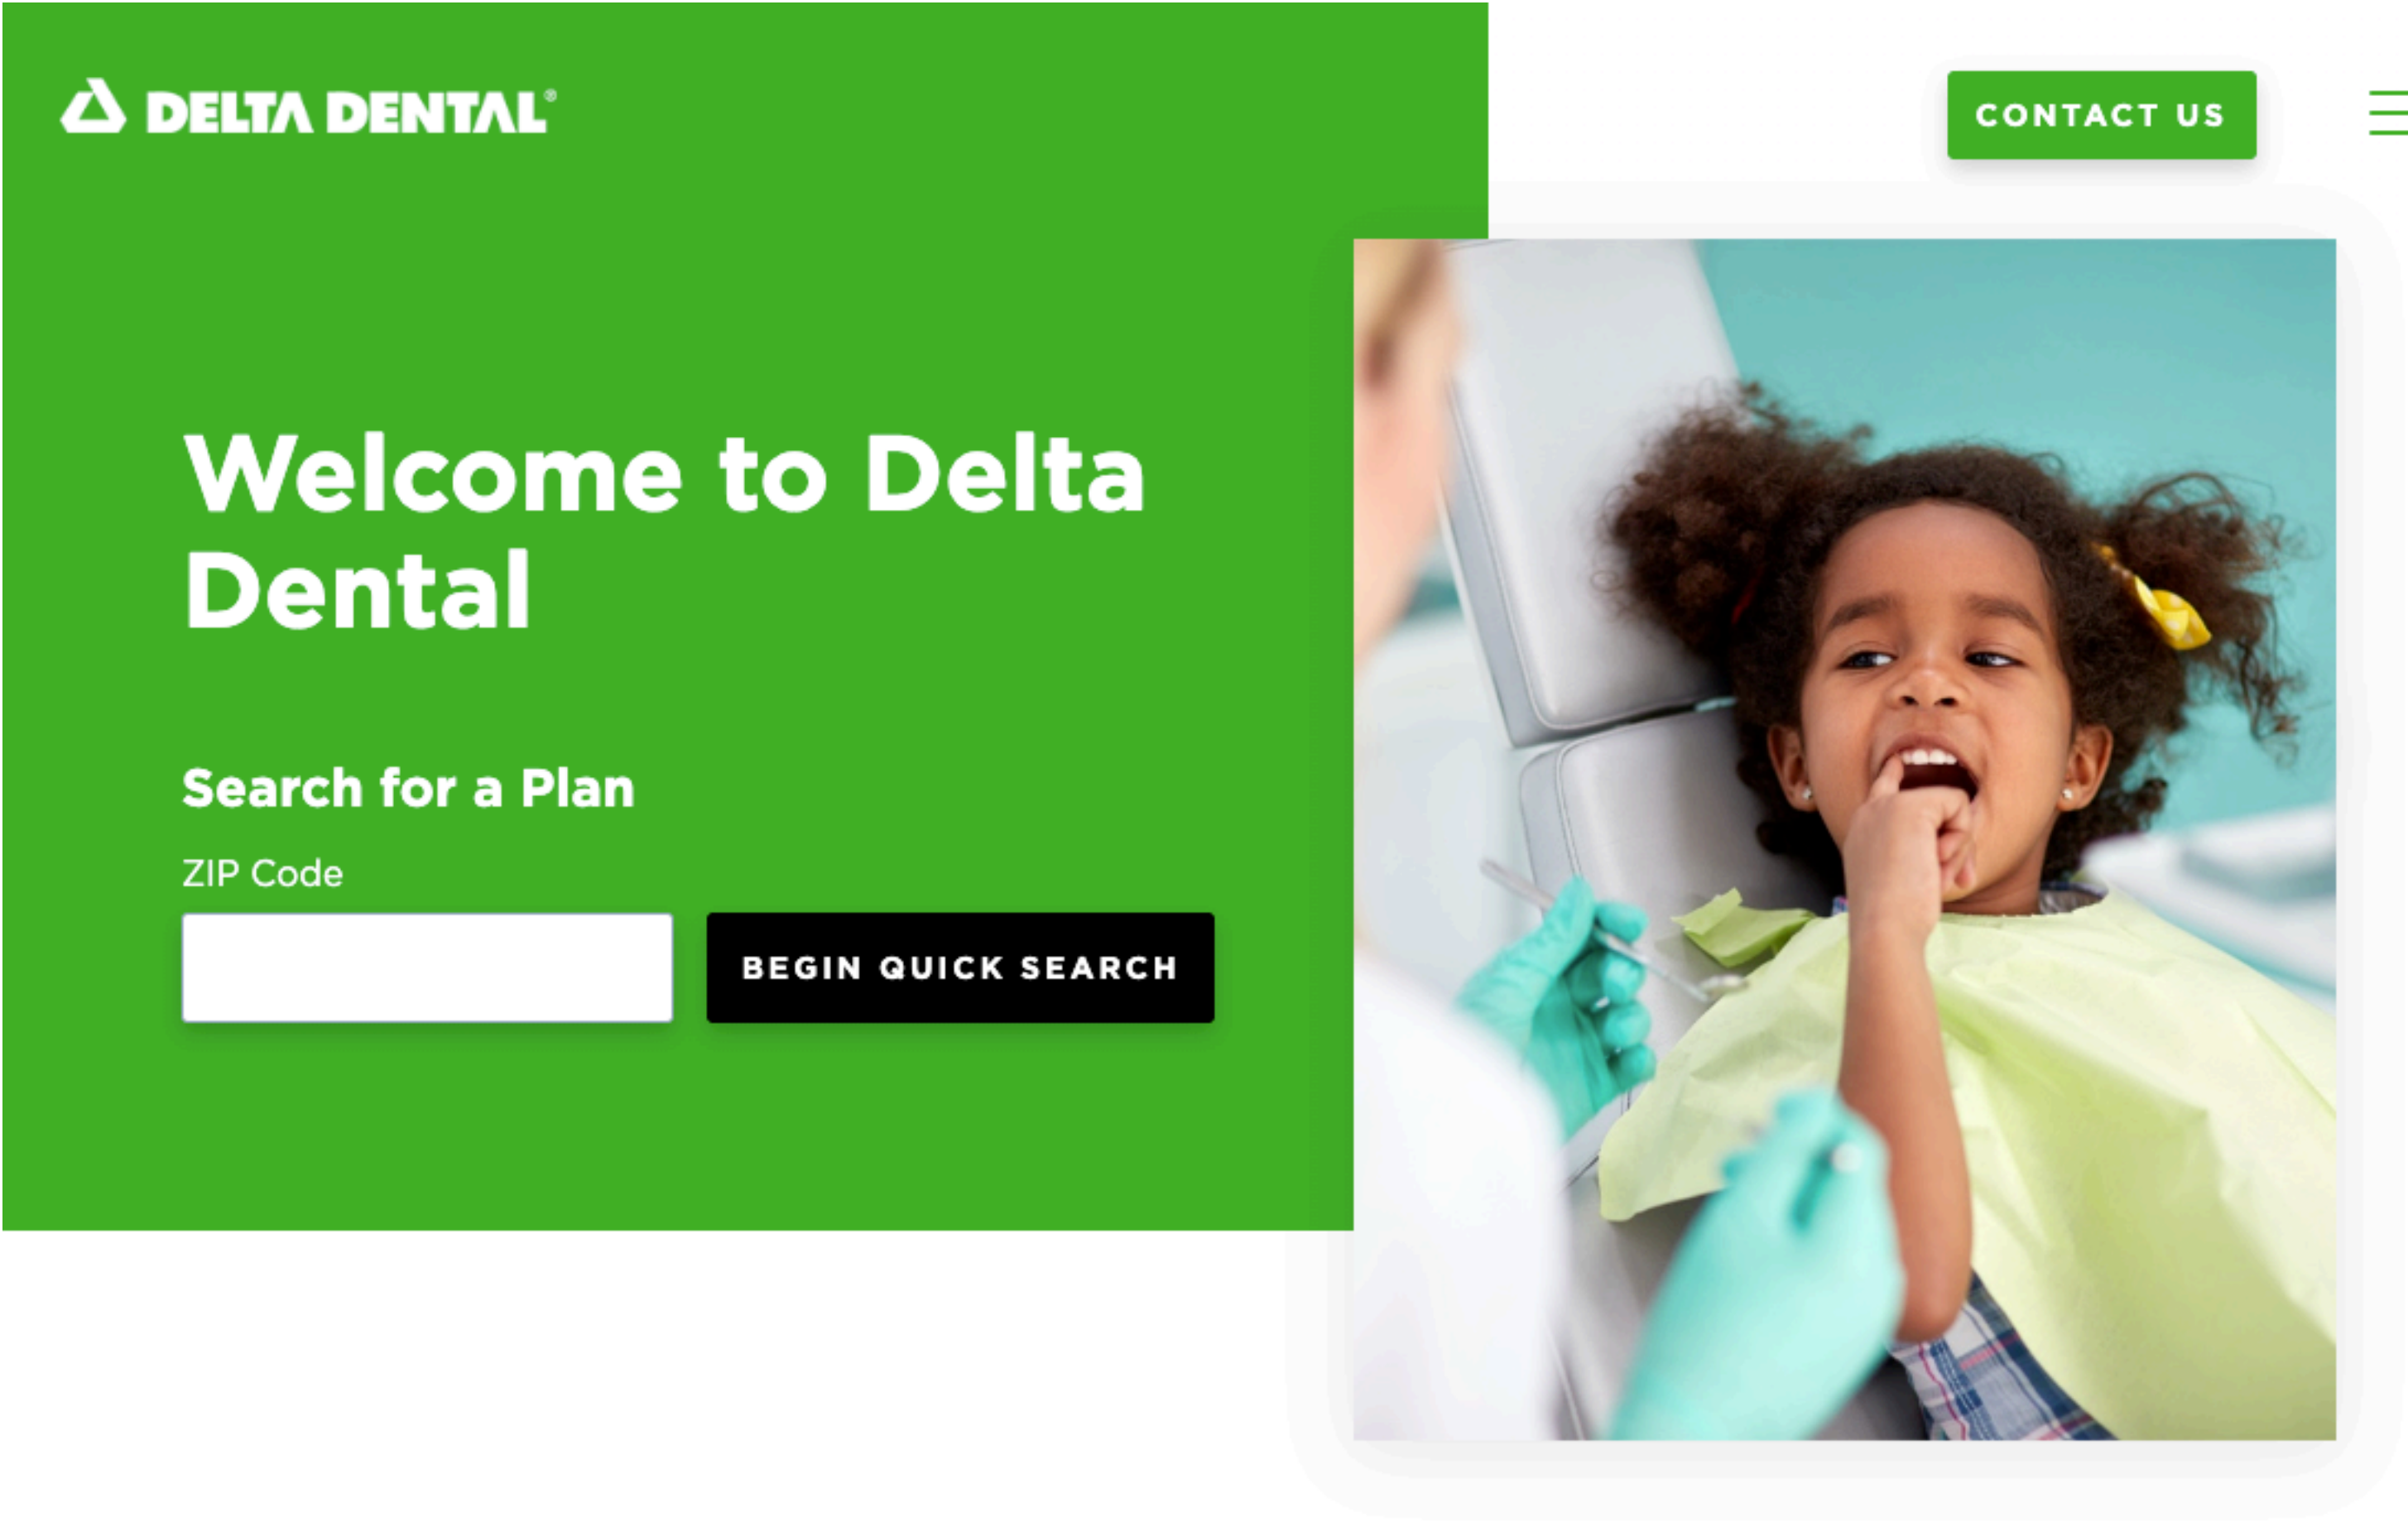

Individual Shopping Platform

ROLE
Senior Application Developer

- Created responsive front end code with HTML/CSS/Angular, including a complex, multi-step madlib-style search.

- Created Freemarker templates for a Magnolia content management system

- Managed User Experience team for SaaS product

- Built a living style guide / design library

- Worked with the agency's designers to ensure my implementation matched as closely as possible to the graphic comps

- Create a second white label theme for a Delta-affiliated subsidiary
